PREPARING A HIGHWAY PROJECT FOR CONSTRUCTION

Highway construction demands adherence to an exact project development process, as specified in federal and state laws. This process incorporates a number of key stages that are vital to the development of a highway construction project:

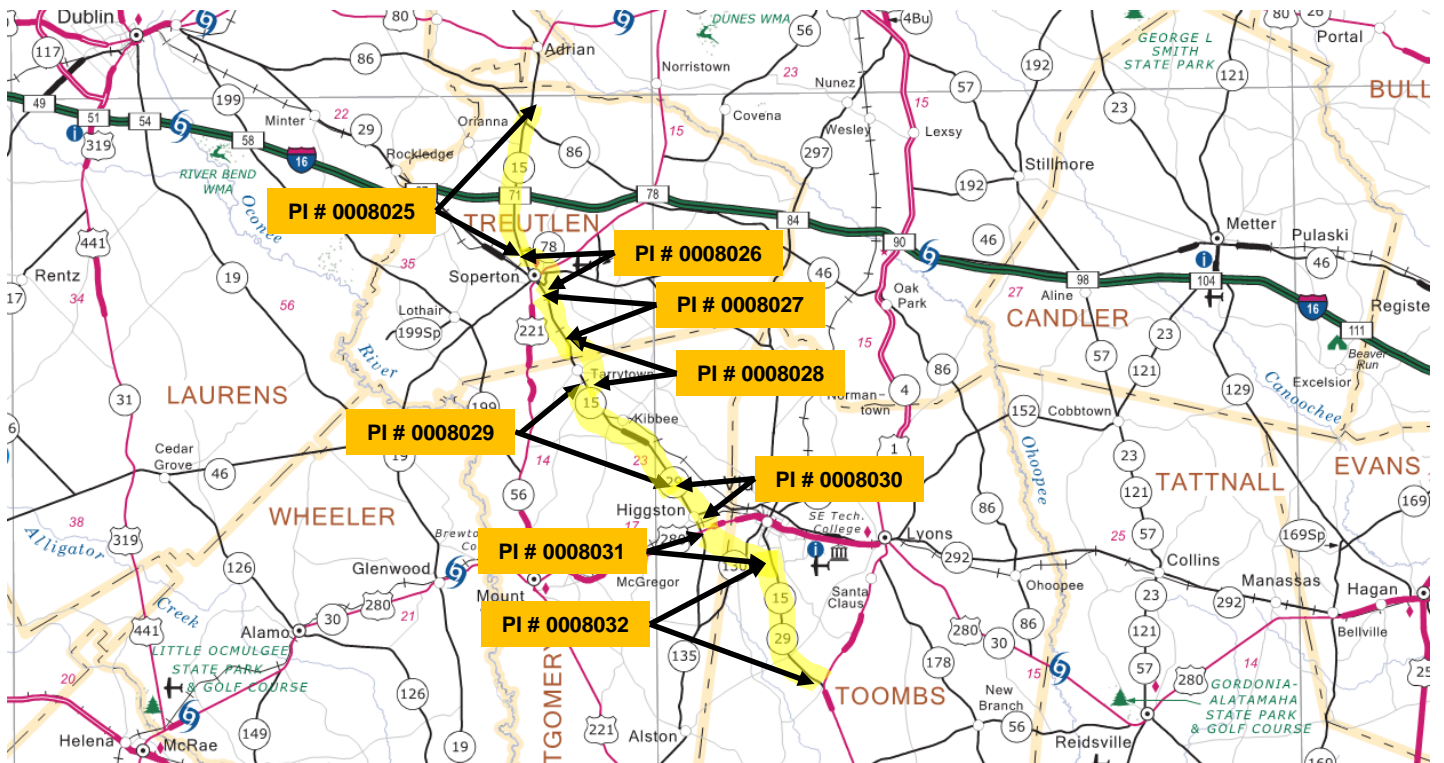

- ◆ Concept Development: Data analysis, conceptual studies and alternatives analysis
- ◆ Environmental Approval: Surveys for environmental resources, public meetings and environmental document approval
- ◆ Preliminary Design Plans: Design and preparation of preliminary roadway plans and utility coordination
- ◆ Right of Way Acquisition: Property title research, right of way plans, property appraisal, purchase of right of way
- ◆ Final Design Plans: Design and preparation of final construction plans and contract documents
- ◆ Let to Contract: Advertise for bids, award to construction contract and begin construction
